

## Machine Upgrades

### Husky Solutions for Evolving Technologies

Husky is always developing solutions to evolve with changing technology to help you more effectively manage your important assets.

Currently we have been helping manage the obsolete GE Fanuc based controls found on all G-Line machines.

Husky is actively promoting short, medium and long-term strategies to suit your specific needs; Updated user interface, Encore™ and new solutions.

Together, our CSM Business Advisors, Service Managers and Sales Representatives, can work proactively to find the best strategies and options and meet your needs.

### Category

- Performance & Productivity Improvements
- Reduced Energy
- Improved Maintainability
- **Obsolescence Management**

#### Upgrade Benefits

The right combination of Husky Encore™ programs and replacement with new solutions is the best solution for long term efficiency, support and sustainability.

#### Installation Instructions

For 2020, new lower priced Encore™ options, shorter lead-times and reduced installation times are now available.

To request more information about ordering Upgrades, Encore™ products, or new solutions sales, a request for quotation can be placed with your local CSM Sales contact below.

**IMPORANTANT UPDATE: GE Axis Positioning Modules (HPN 729685) are no longer available for sale. Please contact your CSM Business Advisor or Regional Service Advisor for Control Upgrade Options.**

#### Product Line Affected

- All G-Line Machines
